

## Donation Drop-Off Safety Protocols

***ATTENTION:*** *If you or any member of your household members are sick or have any cold or flu-like symptoms, or if you have had any symptoms in the last 14 days, please stay home and do not drop off. If you are 60-years-old or above, or if you have underlying health conditions, please stay home and do not drop off. Additionally, if you have traveled via airline in the last 14 days, please stay home. Please do not bring any children under the age of 16 with you to drop-off. This is for your safety, your family's safety, and our community's safety. Thank you.*

Thank you for volunteering to drop off food, boxes, and supplies with Packed with Pride to help serve our community. Please carefully read the following safety protocols prior to leaving to drop off resources:

- Before handling any food or supplies, please wash your hands thoroughly with soap and warm water for 20 seconds.
- Please check the expiration date of all food and supplies. If anything is expired, we cannot accept it. We can only accept non-perishable food items (except for bags of potatoes and onions). Please do not bring any produce or anything that requires refrigeration or freezing.
- Please disinfect all surfaces of the items you are donating (food boxes/packages/supplies) with disinfecting spray or wipes prior to dropping off.
- Prior to leaving your house, sanitize all components of your vehicle that your hand will come in contact with: keys, door handles (inside and out), steering wheel, gear shift, etc.
- All donation drop-offs will be curbside. Please leave your donations under the covered area and do not enter the building. Please do not interact with any volunteers at the site. We know this is a little awkward -- we appreciate your understanding.
- After arriving home, wash your hands with soap and warm water for 20 seconds.
